

Coffee Shop Locator

Description

Jolt, the hub for all things coffee, will be a program that allows coffee lovers around the world to connect - whether it's in person, at a local coffee shop, or online. Jolt will provide users with access to local coffee shops, information about coffee (articles/videos/etc.), and resources to purchase coffee and equipment. For this project, we will build a demo version of this program, with some of the aforementioned features implemented.
