Notes

User Stories

Login

As a User or Admin, I need to be able to log in to access the system

Password Change

As a User or Admin, I need to be able to change my password with email verification.

Create Admin

As an Admin, I need to be able to create other admin users.

Pets

As an Admin, I need to be able to add, remove and update pets available to be adopted. Pet information would include name, image, information about the pet, and information about the adoption agency,

Agency

As an Admin, I need to be able to add remove and update agencies for pet adoption.

Set Criteria

As a User, I need to be able to set some criteria for the pet I want to be able to view. Criteria might include type (dog or cat), distance to adoption facility, and others.

Select

As a User, I need to be able to view a set of pets and accept or reject them using a simple, one-pet-at-a-time, interface

List

As a User, I need to be able to see a list of the pets I have accepted and see details about how to meet them in person and/or how to follow up with the adoption process.

Reset

As a User, I need to be able to reset my choices and get a new list of pets to accept or reject.

Confirm

As a User, I need to be able to confirm my interest in a specific pet and sent an email to the adoption organization expressing my interest, asking a question about the pet, or asking a question about the adoption process.
