

Ping Pong Elevator

Description

Everyone loves ping pong! This app allows users to join the ping pong community for friendly matches, and provides the opportunity to climb the rankings based on awarded points. A new user can view leaderboards, see matches near them, request new matches and be paired up with others in their skill level. Playing matches above your current skill level will award you more points, matches below your skill level will award fewer points. Rankings are based on total points achieved. See your closest competition, and set someone as your Rival! Will YOU be the next ping pong champ?
